

A woman and a man are practicing Tai Chi in a park. The woman is in the foreground, wearing a white short-sleeved shirt and grey pants, with her arms extended horizontally. The man is in the background, also in a white shirt, with his arms extended. The background shows trees and a mountain range under a bright sky.

Cardinal Health™ Incontinence Products Truly breathable

The microbiome: A delicate balance

We all have flora on our skin. But when skin flora is out of balance due to excessive heat and moisture, it can lead to serious skin problems — especially for those receiving care for incontinence.

Introducing BreatheEasy™ technology

The fully breathable line of incontinence products from Cardinal Health allows you to BreatheEasy™ by promoting an optimal skin balance that helps keep skin flora at a healthy level.

Our full portfolio of Protective Underwear, Adult Briefs and Premium Underpads with BreatheEasy™ technology are cooler and more comfortable, resulting in a more balanced microclimate for improved skin health.

For skin. For dignity. For life.

Wings™ Adult Briefs with BreatheEasy™ technology

New breathable briefs

The newest innovation in the Cardinal Health™ Incontinence portfolio
